

Good & Plenty

Masego

Take up some space
You're too far away
Make no mistake
I think you should stay

You'll get every little bit
You ain't never seen a drip like this
Heaven at your fingertips
Don't you let a minute slip just

Say you'll have me
Oh, taste and see
Hope you don't sleep on me
I've got good and plenty

Inhabit all the spaces in-between
It's magic when I taste your inner being
An average day is spent all in the sheets
Emphatic when I tell you what you mean to me (Aye)

Chemistry
Intimate memories
Every time I give you all my
Energy
Emphasis, never sleep (Yeah)
(Never sleep)

Say you'll have me
Oh, taste and see
Hope you don't sleep on me
I've got good and plenty
(Say you'll have me)
(Oh, taste and see)
(Hope you don't sleep on me)
(I've got good and plenty)
Say you'll have me
Oh, taste and see
Hope you don't sleep on me
I've got good and plenty
