

Forbidden Fruit

Mashonda

Will you keep loving me
If I tell you just how I feel
Uncover me until you reveal
All of my love
Take me to your sanctuary
I wanna see
All that is buried
Deep in your heart, heart
Deep in your heart

You're just the taboo I crave
Maybe too good
Words can't explain
It's like a prison mentally enslaved
Freedom is you
Your my escape

The sweetest taste you'll ever have
Down to the root
Just don't forbid my fruit
Give me yours too
Only you, only you, only you
Only you

I think you're my better half
I see that in you
Just don't forbid my fruit
Give me yours too
Only you, only you, only you
Only you

Tell me where you been bout damn time I'll let you in
Make it last longer
Taste like honey and water
Time is suspended when you're committed
Love with no limit
Got my attention
I'm the release you need for your tension
You provide all I need with pure intention
So will you keep loving me
If I tell you just how I feel

You're just the taboo I crave
Maybe too good
Words can't explain
It's like a prison mentally enslaved
Freedom is you
Your my escape

The sweetest taste you'll ever have
Down to the root
Just don't forbid my fruit
Give me yours too
Only you, only you, only you
Only you

I think you're my better half

I see that in you
Just don't forbid my fruit
Give me yours too
Only you, only you, only you
Only you...
