

Touch Me

Mashonda

I get a chill
I get a thrill, when you touch me
A thrill I can't ignore
Keeps me coming back for more
Everytime you touch me, yeah

You know my body's wait for you (oh yes it is)
Right now, right now, if you touch me baby, it'll do tricks for
you (come on baby)

Touch me one more time, the way you did it (come on baby) when
you did it last night (sweet daddy, sweet sugar daddy)
Touch me one more time, the way you did it, when you did it las-
t night
Touch me one more time, the way you did it, when you did it las-
t night (that's all I want you to do for me)

Cuz I know everything's gonna be alright
Because it's always this when you (touch me, touch me, touch me
)
I can feel the sun in my eyes
But I don't never come alive until you (touch me, touch me, tou-
ch me)

No, my heart is forever yours baby (oh yes it is)
And it'll be now and forever more

Touch me one more time, the way you did it when you did it last
night (touch me, touch me, touch me, won't you?)
Touch me one more time, the way you did it, when you did it las-
t night (that's all I want you to do)
Touch me one more time, the way you did it, when you did it las-
t night

You know my heart is forever yours baby (oh yes it is)
And it'll be now and forever more

Touch me one more time, the way you did it when you did it last
night (touch me, touch me, touch me, won't you?)
Touch me one more time, the way you did it, when you did it las-
t night (in the evening time too, yeah)
Touch me one more time, the way you did it, when you did it las-
t night (keep touching me baby, baby, yeah)
Touch me one more time, the way you did it, when you did it las-
t night (that's all I want you to do for me)

Put all over mine, put all over mine, sweet baby (can you feel
the need in me?)

Put all over mine, put all over mine, sweet baby (baby, baby I)
Put all over mine, put all over mine, sweet baby
Put all over mine, put all over mine, sweet baby
