Say I will let you know that I got you
Now I don't want to snooze
Got to show I choose you
I got flowers in my room
But they were not from you
So I set them on fire
Got damn miraculous
That you're around in here before I got all chocked up
There goes my eye nine
To shine and I'm going to show me and girly who's loved ya
A kiss no really I need you up here to heal me
No Visa I'm Swimming why scared to me I need this
No fear in me when you said we should pack up Eh
Don't have anything else I'm doing or baby you know I'm anywhere you say

Really like fi just feel the vibe fi just
Spend me life with you
Die for us fight for us
Spare me life fi you
Young king no pretender
