So true them never see no tears in a me eye, but mi heart cry

Whole heap a stumble man stumble in a the jungle, me nah lie

Aye, have the scars fi show me people them the fight real

Me in it fi win it, me tough like steel

Know some dawg weh hold it out and some no like squeal

Hungry days again, them sell you out fi a nice meal

Turn your back 'pon your people them 'cause you rise youth

Now your back 'pon the ground, yeah man a so life real

Yeah, we know hungry days, how lonely nights feel

When pussy want fi kill me, God a me gun and my shield

Hear the pain in a me voice, in a me eyes real

Life hurt me a lot, me still a try heal

Yeah we stand up and fight, can't see the high kneel

Man born fi win, aye, hold on

It's like me try everything and fail in a the end

The pressure in a me family them, failure me friend

Dark cloud, dark cloud, see the rain there again

Me put me trust in a me voice, me put me faith in a me pen

Me couldn't trust mankind, me see the snake in a them

Me spot the envy in a her, me see the hate him a send

You would a give them a start, and them a wait fi you end

The plate fi empty a morning, them no rate you again

Aye, people change up fast

'Member me life and not a day don't pass

Me dream start 'pon the corner, the corner

Where most a me friend life lost

What them know

Bag a loose par, me no tarry, me no joke

Carry me go Dubai, no carry me go court

Fat Porche with the big body in a sport

Of course, fi live happy, me a vote

Mi find rice, we pick ackee, run a boat

Yeah, life nice, haffi survive, stay afloat

Me nah sink, we can't sink, hold the boat

All when the sea rough, faith anuh hope
