Masicka

Left right
Left right, left
March on, we nuh done fight yet
Face all a mi demons never hide yet
Promise fi find a way from me find breath
A left right
Left right, left right left
March on we nuh done fight yet
Journey come with losses just so life set
Dem hurt we but you pass with different mindset

Man a soldier till it over
Yo dem streets yah mek me colder
Throw the rifle pon me shoulder and we nuh fall
As we getting older we show no love
Place weh we call home
Full a cobra but me know Jah
Me have it, me nuh joker
You try fi stop me food, you get corn up
Youth fi feed, cyaan bruk
Me a the truth fi real, this a cyaan luck
Me have murder pon me mind but me Psalms up
Tell dem me firmer this time, dem left me heart bruk
And drop me see them drop fi run the shortcut
A me son alone me see and starstruck
We nuh frighten fi bwoy
We nuh frighten fi girl
From yuh energy nuh right, man affi lost you
Get this right, it ago cost you
Nuff restless nights inna da past
Mind pon me family, me tell you every time
The world we used to live, mi memba every time
And fi mek it out a this mi give dem everything
Me spend most a my life a study every rhyme
Stand up to any battle, strap up fi any fight (strap)
Ready fi any tackle, dem affi know we might
Write a story like King Solomon fi show the heights
Hell frost to night once me step before the mic

As a Don now you a me Don now you affi use the credit
Drop a bomb now raise the bar now a just you Fi shell it
Dae- Greatness no only come through genetics
Some people really cut me deep somehow mi wound replenish
