

B & E

Masked Intruder

Everybody listen up and shut your mouth. As a matter of fact, you better write this down. Don't you ever wish that you had more stuff? Follow what I say and we'll get you hooked up. Don't even worry about the haters. Think about yourself for once. Go on and get you some. Go do a b&e. It's so cool, you gotta see. You can get your kicks and so much shit you almost can't believe, so come on. I'll keep a lookout just to make sure it's safe, you go do the work and gimme half the take. If the cops show up, I'm leaving with or without you. If you can't pay attention then I'm sorry 'bout you.

Don't even worry about the haters - think about yourself for once. Find a nice spot, no one home, no dogs, then just avoid the cops and the neighborhood watch. Go do a b&e. It's so cool, you gotta see. You can get your kicks and so much shit you almost can't believe. So go do a b&e. You'll live out all of your wildest dreams, so long as all your wildest dreams are pawning jewelry. So cool, you can't believe. So, come on.
