

If You Would Hold My Hand

Masked Intruder

This world is such a f*cking shitty place
Just makes me wanna go and hide away
But I'd stand smiling in the light of day
If you would hold my hand
I know the cops are trying to track me down
Smart move for me would be to just skip town
But I'd be brave and just stick around
If you would hold my hand

If you would hold my hand, I could fight the cops
And then die smiling when I got shot
If you would hold my hand I know that I could be a better man F
inally find a way to rise above the lowdown world I've been liv
ing in
I could do anything, anything at all
If you would hold my hand
If you would hold my hand

When you're inside they keep you locked down tight

No chance of escape, may as well not try
But I could get put in and bust out same night
If you would hold my hand
I've never given anything much thought
Just try to get by with the wits I got
But I could be an Einstein, I shit you not
If you would hold my hand
If you would hold my hand, I could fight the cops
And then die smiling when I got shot, oh
If you would hold my hand I know that I could be a better man F
inally find a way to rise above the lowdown world I've been liv
ing in
I could do anything, anything at all
If you would hold my hand
Oh, I could do anything at all
If you would hold my hand
If you would hold my hand
