

Please Come Back to Me

Masked Intruder

I've been so sad and lonely ever since you went away
You were my one and only
Now I'm only one and I must say: I liked it better when you were around
Now that you're gone the grass is all brown and the skies are grey. I don't know what to say, baby
Please come back to me
Baby, please come back to me
You know I'm lost without you, cause I was lost when I was with you, too

But now I'm losing it through and through, seeing as how I was lost on you
I can't excuse all the things that I done
You hate my guts?
You ain't the only one
Thought I was bad before?
Now I'm an open sore
Baby please, come back to me
Baby, please come back to me
