Running from the Cops

Masked Intruder

[Verse 1]
Everything is awesome when you're running from the cops
Set some traps to stop them when you're running from the cops
Seems like all I ever do is run, maybe I could stay
Stay and hang around with you for a couple of days?

[Chorus]
Running, running from the cops
We're running, running from the cops
We're running, running from the cops again
[Verse 2]
Freedom is on the line when you're running from the cops
Always a good time when you're running from the cops
Seems like all I ever do is run, maybe I could stay
Stay and hang around with you for a couple of days
A couple of days
Well, what do you say?

[Chorus]
Running, running from the cops
We're running, running from the cops
We're running, running from the cops again
We're running, running from the cops
We're running, running from the cops
We're running, running from the cops again
