

# Astronomical

Masked Wolf

Stars shine, you will never see, yeah, my dark side  
Keep it on the low, had to path find  
Never was too greedy, this ain't all mine  
Might transform and become astronomical  
Everything I touch, everything I do, astronomical  
Stargazing through the heavens like astronomical  
The pearly gates, they opened up, astronomical  
Astronomical

Take me down the broken road and I'll fix myself  
No cloud nine, I'm sitting on an asteroid belt  
Who you gon' trust if you don't trust yourself?  
I've been working until the night's end, fingertips playing with the lightning

I ain't here to show that mercy  
I'm just tryna give thanks like turkey  
All I know, man, is business hard working  
I'm just trying to be the bomb, get it on till I'm gone, all along, man, I've been that person  
Didn't have time to kick it, Van Persie  
Didn't have time for beef like jerky  
Didn't have time for birds, too chirpy  
Might take a motorbike to Mars just to say that I did it  
One foot on the ground, play the pivot  
She gone giv' me them digits, I ain't wit' it  
I don't play for the fake, I got used to the hate  
I was drowned by the chase, never hungry for the fame  
Just sat in a lab wit' a pad and a pen  
And went from profession straight to professor, dawg  
Nobody gon' stress me, dawg  
Nobody gon' test me, dawg  
Fish out the ocean, I'm way too raw

I'm running a hundred hundred  
I get, I'm gunnin', gunnin'  
For anyone coming, coming  
They better keep ducking, ducking  
I see that they money hungry  
She want to get lovey dovey  
I told her want nothing, nothing  
Don't play with them dummy, dummies or what

Don't play my time, don't waste my time  
I don't got love for that  
Why you lie all the time?  
You don't love me back  
I know why I sit in that sky  
'Cause I'm not coming back  
Had to blossom like a lotus, huh  
Flow like a canon, stay focused, huh

Stars shine, you will never see, yeah, my dark side  
Keep it on the low, had to path find  
Never was too greedy, this ain't all mine  
Might transform and become astronomical  
Everything I touch, everything I do, astronomical

Stargazing through the heavens like astronomical  
The pearly gates, they opened up, astronomical
