

# Hell Or High Water

Masked Wolf

Guess it's time to give you verses like it's bible scriptures  
Everybody hurting I know that ain't our decision  
We feeling disconnected always like the cable missing  
Lost in a different space we need to reposition

Praying for better days like all we need is rainfall  
Our holy room is empty all we see is decor no need to say more  
Recollecting all my thoughts scour through memories  
Recollecting all of my fights aware of enemies

I still appreciate ya'll see I'm forever grateful  
This here could be the lullaby for babies cradles  
This here got that horsepower like it's a stable  
I identify as worthy but don't got a label

Hmm maybe that will resonate and hit you different  
Hmm I think we all equal no matter our pigment  
Imagination let use it just a little figment  
Bradley cooper but without the pill I don't see a limit

How the hell I mean pardon me  
I bleed for the music like I hit arteries  
The seed for this music like it's a part of me  
When the hellhounds came they tore a part of me

But I still rebuild I still remake  
I can't walk on water I can't stop earthquakes  
See I am just a human walking in earths space  
But what I can be is forever great

Hell or high water I see the rainbows  
Hell or high water I see the angels  
Hell or high water I got my raincoat  
Even when we rained on our hearts stay strong

Hell or high water I see the rainbows  
Hell or high water I see the angels  
Hell or high water I got my raincoat  
Even when we rained on our hearts stay strong

Don't misinterpret it, life got more acts then the circus did  
Temporary bullies had me feeling like it's permanent  
My burden is feeling the pressure like a tournament  
The curtain is closed for the moment but I'll be opening up soon  
Tell em I'll bust through  
We all gotta feel the wounds something we can't cut through  
Now tell em I'm well aware making moves like I'm Fred Estair  
Feel the heat everywhere, are we living forever scared?

I tell em like no no no no no no mama  
Like no no no no no  
I tell em I want no no no no no no drama  
I want no no no no no

Hell or high water I see the rainbows  
Hell or high water I see the angels  
Hell or high water I got my raincoat

When we rained on our hearts stay strong

Through Hell or High Water yeah
