Numb

Masked Wolf

I don't wanna be at the fucking party

I'm sorry that I'm late to the party I don't wanna be here
Alota people yelling in my ear like
Get another beer like
Go get cigs I gotta light
Nearly got into a fight

Blocking out these feelings like I'm numb
I don't really care if you get drunk
But please don't try and make me do the same
Peer pressure doesn't work onto my brain
I'm blocking, blocking all these feelings out
Like I'm getting
Numb, na-na na-numb
Like I'm getting
Numb, na-na na-numb
Like I'm getting
Numb, na-na na-numb
Like I'm getting
I am blocking all these feelings out like I'm getting

You get hyped when that bottle pop oh you acting cool
See I get angry when you talk a lot I get kinda rude
And up front I'm very different
Itching to get in a studio talk about what I see like speak my vision
Sit on the couch
Like a recluse
Staying inside
Do what I do
Don't wanna come to the-the party
Girls being fake show off their bodies
To be the man be a man y'all think y'all fly like Peter Pan
You take a gram or you run a gram
You judge but can't take a stand
All I see is a fake
All I feel is the hate
There is a lot of commotion
I'm kind of sick of this place
I'm kind of sick of this party
Ya'll doing Bob Marley
"But dude it's so gnarly"
I'm kind of sick of your face

I'm sorry that I'm late to the party I don't wanna be here
Alota people yelling in my ear like
Get another beer like
Go get cigs I gotta light
Nearly got into a fight

Blocking out these feelings like I'm numb
I don't really care if you get drunk
But please don't try and make me do the same
Peer pressure doesn't work onto my brain
I'm blocking, blocking all these feelings out
Like I'm getting
Numb, na-na na-numb

Like I'm getting
Numb, na-na na-numb
Like I'm getting
Numb, na-na na-numb
Like I'm getting
I am blocking all these feelings out like I'm getting

You come to this shh looking for a soul mate
You just wanna get in some legs like oh-lay
Lied to yourself keep saying that you so great
When you come up you're not real that's a pump fake

I see the difference in you
I see the lying in you
Let me express
I see the pain in inside
I feel the crying you
Let it digest
Truths out when you drink
Flows making you sink
Whats a chain reaction
With the missing link
Maybe you should think
Let the brain work
Oh you wanna drink and off your shirt
Don't wanna be here man I don't wanna be here
This might be for you man but for me it's quite weird

I'm sorry that I'm late to the party I don't wanna be here
A lot of people yelling in my ear like
Get another beer like
Go get cigs I gotta light
Nearly got into a fight

Blocking out these feelings like I'm numb
I don't really care if you get drunk
But please don't try and make me do the same
Peer pressure doesn't work onto my brain
I'm blocking, blocking all these feelings out
Like I'm getting
Numb, na-na na-numb
Like I'm getting
Numb, na-na na-numb
Like I'm getting
Numb, na-na na-numb
Like I'm getting
I am blocking all these feelings out like I'm getting
Numb
