

# Pull The Trigger

Masked Wolf

When your life on the line, who gon' pull the trigger, trigger? (Yeah)  
When you've lost all your shine, who the ones who roll with ya', with ya'? (Yeah)  
It's all about fashion, lights, camera, action  
It all goes when you go (Go)  
So take me to the angels, places with the halos  
While I'm stuck on this road

These rappers talk about these keys, push to start  
I talk about my mental bleeds, ya'll know my heart  
They talk about their shopping dreams, that add to cart  
I wanna inspire many teens, I'll be the spark  
Ya'll keep talking 'bout cash flow  
I keep it cool on your handle (What?)  
Emotions, they hold you for ransom (Ransom)  
Your friends, they gon' turn into phantoms  
Ghost, and most  
You learn, some leave, you hurt  
But never focus on your sins before you go to church  
That's facts (That's facts)

When your life on the line, who gon' pull the trigger, trigger? (Yeah)  
When you've lost all your shine, who the ones who roll with ya', with ya'? (Yeah)  
It's all about fashion, lights, camera, action  
It all goes when you go (Go)  
So take me to the angels, places with the halos  
While I'm stuck on this road

Rolling, rolling, got me going  
Different routes, can be found  
Rolling, rolling, need a moment  
In this realm got no crown (Ayy, ayy, ayy)

I stayed down for this, it ain't happen overnight  
If you wanna keep on winnin', then you gotta take a fight  
Ain't nobody give me nothin', really had to get my mic  
Twenty thousands make you flip, I show you how to make it right (Right)  
Uh, uh, like where ya' crew at? (Crew at)  
Keep your family close, they changin' on you, thought you knew that  
Only trust myself, 'cause I got demons on my shoulders (Shoulders)  
Ridin' to the end, until it's over, motherfucker (Uh)

When your life on the line, who gon' pull the trigger, trigger? (Yeah)  
When you've lost all your shine, who the ones who roll with ya', with ya'? (Yeah)  
It's all about fashion, lights, camera, action

While I'm stuck on this road

Rolling, rolling, got me going  
Different routes, can be found  
Rolling, rolling, need a moment  
In this realm got no crown

I'm going through these hands of time, but still no one clock off

Throw me to the wolves, either way, I'll be the top dog  
Gave you three chances, scissors, paper, rock off  
In life we get a password, too many of ya'll log off  
Mhm, shit, let me just shut it down  
Circle tight I don't run around  
Ammunition, gun rounds  
Need people who gon' die for me (Die)  
People who gon' cry for me (Cry)  
They know I'd do the same and that's the reason that I ride for them  
That's facts
