

# STONE COLD KILLER

Masked Wolf

Everything that's in the safe, dog it isn't safe  
My whole team about to eat so we saying grace  
Everybody in my circle couldn't be replaced  
One of ones they'll spend they whole life tryna replicate

I'm tryna body stack all the copycats  
Lately feeling like I'm Johnny Cash where the parties at  
Cuz I'm maxing out the BMI not talking body fat  
And that's from murdering these beats and stacking up the body bags  
I just bodied that

Keep on pretending  
That you're happy and you're not all alone

You'll never end me  
I know you hate me and it's down to the bone

Cuz I'm a stone cold killa  
A ticking time bomb I'm ready to blow  
Cuz I'm a stone cold killer  
Stay out the way I'll turn you to a ghost

It's a symphony when I walk in  
I'm an instrument of my own  
I pull strings like I orchestrate a conductor here  
See I'm in charge when the cash come  
Like beep beep morse code  
My life another language  
Let me explain  
Two ways I can really go  
I'mma choose the time like mistletoe  
I don't pass the bun no give and go  
Until I pass out until I'm critical  
It's a dog eat dog world, repeat, heat seek in a cold world  
I don't need a warm up let me warn ya  
I'm a stone cold killer

Keep on pretending  
That you're happy and you're not all alone

You'll never end me  
I know you hate me and it's down to the bone

I'm a stone cold killa  
A ticking time bomb ready to blow  
Cuz I'm a stone cold killer  
Stay out the way I'll turn you to a ghost

I'm a stone cold killa  
A ticking time bomb ready to blow  
Cuz I'm a stone cold killer  
Stay out the way I'll turn you to a ghost

I'm a stone cold killa  
A ticking time bomb ready to blow  
Cuz I'm a stone cold killer  
Stay out the way I'll turn you to a ghost

Cuz I'm a stone cold killer  
A ticking time bomb ready to blow  
Cuz I'm a stone cold killer  
Stay out the way I'll turn you to a ghost
