

Switch

Masked Wolf

Yeah yeah
Sometimes yeah I need to switch
So I start to switch

I switch, when I get like this
I lose control, cannot hold elements
Then I start to switch, when I get like this
I lose control, cannot hold elements

I don't wanna ride, I don't wanna roll
I ain't livin' life, I'm takin' it slow
I been on edge, like I'm on the coast
She gon' dive in, like it's a moat

Then I start to switch, when I get like this
I lose control, cannot hold elements
Then I start to switch, when I get like this
I lose control, cannot hold elements

Got no time to waste (time to waste)
Today was yesterday (yesterday)
All I hear is chitchat
Little bit of this that
And that money you make
At times I feel I break (I break)
But the melody kill my space (my space)
I had to get ahead
But couldn't lose my brain, yeah, yeah

Boom switch, colors change
You just worried 'bout your chains
I just worry 'bout my game
Flow be so cool, still flame
Don't pop pills in the late night
But I still got flow like a great white
Don't chose to break like half time
But sometimes I just switch sides

Then I start to switch, when I get like this
I lose control, cannot hold elements
Then I start to switch, when I get like this
I lose control, cannot hold elements

I don't wanna ride, I don't wanna roll
I ain't livin' life, I'm takin' it slow
I been on edge, like I'm on the coast
She gon' dive in, like it's a moat

Keep the work like it's 9 to 5
Payin' me like my oh my
Cream of the crop, like we talkin' science
Take a risk, let me roll the dice
Tell me the price to pay
Line to break
Head gon' sway, yo we gon' shake
No holiday, time to waste
No fade away, we don't fall away

Ey, sometimes I feel I might drown
Skeletons in my closet wanna come out
This that shit that make me start to drift
Then I start to slip

Then I start to switch, when I get like this
I lose control, cannot hold elements
Then I start to switch, when I get like this
I lose control, cannot hold elements

I don't wanna ride, I don't wanna roll
I ain't livin' life, I'm takin' it slow
I been on edge, like I'm on the coast
She gon' dive in, like it's a moat

(Then I start to switch, when I get like this)
(Then I start to switch)
