## Masked Wolf

Ain't nobody do it like I really do it  
I was comin' on and everybody lookin' all confused that that flower dont grow without water  
That that bass sounds so distorted  
Yeah that bite just come like pythons venom, drippin' with the lights on  
Better have them bloody eyes on, cause see I just be that icon  
That's word to Jaida Smith, (uh)  
That's word to David Blaine  
Ya, these rappers hear this flow they sew their mouths and close 'em brains  
(uh)

Gimme that gimme that price (gimme that)  
Gimme that gimme that moist (I said gimme that)  
I rip it into iddy bitty pieces, that's where the fucking beast is, man I do it all night!  
You don't wanna mess with this (No fleet!)  
Ain't nobody could step to this (No me!)  
Can a man get a little bit of a time, (yuh)  
With a little bit of that wine, (yuh)  
Drunk out of they mind-uh  
Sittin' in this shit with no shine-uh  
But that's okay with mine-uh  
Eyes wide open no blind (yuh)  
(Woo)

Vibin' (eh)  
Even when I'm home I just be

Aigh, (aigh), aigh, (aigh), aigh, one-two  
Aight well get it like (y'all ready like)  
Flow so sweet like lemon-lomin' bitters  
Putting y'all to bed like you came with some linen  
Lullaby, Imma fly, you can be nullified  
Say goodbye, tryna be me? Have another try  
You ain't on my level, what level you on?  
Let em all get involved and then they just all dissolve  
Disintegrate, Ventilate man you an my enemy  
You ain't ever gonna be my doe, right?  
Regulate wait H2O my element  
Flow is heaven sent G. O. D. my president  
Ain't nobody better then me  
Dive in the deep see what I mean  
Do it again rinse and repeat  
Feed off the beat, while you sleep  
You never had a reach like  
She gives you top, let's call that a bird brain  
I'm flat a deaf, let's call that a third rave

Your flow thirsty, my flow working, word play certain, dont show mercy  
I was born to do this, hit always and never to miss  
She wanna give me a kiss, but please dont bring me them lips  
Let me give you life like Ivy, then call up innerscope and tell I win I win
