

## Where's Wally

Masked Wolf

When the pain comes back around  
That's when a man like me gets hopeless  
You know 8 mile lose yourself  
I started choking  
When the pain comes back around  
That's when a man like me gets hopeless  
Standin' in the crowd  
Where's Wally? You won't get noticed

Had to be unique  
Ugly duckling, wet my beak  
Made fun of my accent  
Now they hit me up last week  
The followers grew, ain't that funny  
They watch my lead  
Back then I wanted to join  
I was never in their league  
The roles reversed  
Now you the one up in the deep  
You heard my song  
Royalties is all you need  
Better watch yourself  
When you talking wit' that cheek  
Take a percentage  
The work is done  
There ain't no beef

When the pain comes back around  
That's when a man like me gets hopeless  
You know 8 mile lose yourself  
I started choking  
When the pain comes back around  
That's when a man like me gets hopeless  
Standin' in the crowd  
Where's Wally? You won't get noticed

Fuck royalties, I'm royalty  
But I don't sleep  
Loyalty over everything  
See, I just play for keeps  
You follow flows  
That's why your flow started to leak  
Pipes started to break  
But me, I'm way to niche

I will not change  
I spit from the heart not from the brain  
In my room I would write, I would train  
All wit' my soul, this what it takes  
See nobody would give me a shot  
In the studio, little red dot  
Finance was zero, I put in the lot  
This is no peak, this is no top  
This is beginnings, I'm winning it all  
But money ain't all, that's word to the Lord  
The demons will come  
The angels will fall

That was my ring  
They answered the call  
What is a win? What is a draw?  
Homies ain't round to witness it all  
Got 'em on hand just like a palm  
This is the warning, ring the alarm

When the pain comes back around  
That's when a man like me gets hopeless  
You know 8 mile lose yourself  
I started choking  
When the pain comes back around  
That's when a man like me gets hopeless  
Standin' in the crowd  
Where's Wally? You won't get noticed

Fuck royalties, I'm royalty  
But I don't sleep  
Loyalty over everything  
See, I just play for keeps  
You follow flows  
That's why your flow started to leak  
Pipes started to break  
But me, I'm way to niche

When the pain comes back around  
That's when a man like me gets hopeless  
You know 8 mile lose yourself  
I started choking  
When the pain comes back around  
That's when a man like me gets hopeless  
Standin' in the crowd
