

Take me back where I belong
Take me back where I belong
The night is short and life is long
Take me back where I belong

When I feel alone, can I find the light?
Gimmie little bit of your sweet lovin'
And I'll feel alright

Give me something I can feel
Give me something I can feel
The night is short and love is real, yeah
Give me something I can feel

When I feel alone, can I find the light?
Gimmie little bit of your sweet lovin'
And I'll feel alright

Wedding bells are ringing, ringing Armageddon
Wedding bells are ringing, ringing Armageddon
Wedding bells are ringing, ringing Armageddon
All will be forgiven, all will be forgiven

Give me darkness, give me day
Give me darkness, give me day
Keep me open, keep me brave
Give me darkness, give me day

When I feel alone, can I find the light?
Gimmie little bit of your sweet lovin'
And I'll feel alright

(now listen)

Wedding bells are ringing, ringing Hallelujah
Wedding bells are ringing, ringing Hallelujah
Wedding bells are ringing, ringing Hallelujah
All will be forgiven, all will be forgiven
