

Better Than That

Mason Jennings

Truth of the matter and the matter is fact
That it breaks my heart to see you this way
I pass your house and I double back
You know it breaks my heart to see you this way
Listen here
I could treat you better

I'm gonna be a sign
Baby light me up
I'd like to shine for you
Yes I do, Yes I do
I'm a marquee baby light me up
I gotta shine for you
Yes I do, Yes I do
Listen here
I could treat you better

So much better than that
Better than that, yes
So much better than that
Better than that

Truth of the matter and the matter is fact
That it breaks my heart to see you this way
I pass your house and I double back
You know it breaks my heart to see you this way
Listen here
I could treat you better

So much better than that
Better than that, yes
So much better than that
Better than that

I'm gonna do to you all the things you want me to
Touch you in the way that you want to be touched
You don't get it like you should
I'm gonna make you feel good
Make you feel good

I am the prince of a foreign land
Gonna take you there when you take me up
And on that day you will understand
Gonna take you there when you take me up
Listen here
I could treat you better

So much better than that
Better than that, yes
So much better than that
Better than that

I'm gonna do to you all the things you want me to
Touch you in the way that you want to be touched
You don't get it like you should
I'm gonna make you feel good
Make you feel good

I'm the sign baby light me up
I gotta shine for you
Yes I do, Yes I do
I'm a marquee baby light me up
I gotta shine for you
Yes I do, Yes I do
Listen here
I could treat you better

I'm-a be a sign baby light me up
I got to shine for you
Yes I do, Yes I do
I'm a margquee baby light me up
I gotta shine for you
Yes I do, Yes I do
Listen here
I could treat you better

So much better than that
Better than that, yes
So much better than that
Better than that
So much better than that
Better than that, yes
So much better than that
Better than that
