

# Butterfly

Mason Jennings

Look at me now  
I'm all dressed up in your words today  
Do you think about me  
What do you think about me  
And if it comes down  
It's still about the sweet little things you say  
After all that i've run from,  
Where the fuck did you come from  
Butterfly, baby i still have my doubts about you 'cause  
Butterfly, 'cause i can't find nothing bad about you and  
Butterfly, you mess me up you made my heart double beat and  
Butterfly, i don't know how it is you got inside of me  
But you're in there now  
Oh you're in there now, you're in there now  
You made me yours  
With your lovely cures  
And life is life  
I don't why it is i do things like this  
After all that i've come from  
You're the woman i should run from  
Butterfly, baby i still have my doubts about you 'cause  
Butterfly, 'cause i can't find nothing bad about you and  
Butterfly, you mess me up you made my heart double beat and  
Butterfly, i don't know how it is you got inside of me
