

Witness

Mason Jennings

Can I get a witness in the morning
Can I get a witness in the evening
Then I'm gonna let this world look into my life
Can I get a witness from the country
Can I get a witness from the city
Then I'm gonna let this world look into my life

You can send the ones that talk about us
Disbelievers, all the doubters, flowers from me
You can send the one that never felt it
Never touched it, never held it, flowers from me
Tell 'em I was dead too till I found you

Can I get a witness from the rooftop
Can I get a witness from the blacktop
Then I'm gonna let this world look into my life
Can I get a witness from the valley
Can I get a witness from the alley
Then I'm gonna let this world look into my life

You can send the bottle caps and empties
All the honorary entries, flowers from me
You can send the ones still out there fishing
And the stars on which they're wishing, flowers from me
Tell 'em I was wishing too till I found you, alright

I'm gonna let this love into
I'm gonna let this love into
I'm gonna let this love into my life
I'm gonna let this love into
I'm gonna let this love into
I'm gonna let this love into my life

Can I get a witness in the morning
Can I get a witness in the evening
Then I'm gonna let this world look into my life
