

All I See Is You

Mason Ramsey

All I see is you
All I see is you

When we're pulled from the wreckage of a would-be broken heart
And we're lost in the moment though I just can't stop
Cause all I see is you
All I see is you

All I need is you
All I need is you
Cause we had that kind of magic before we fell apart
And I wished it never happened cause now I just feel lost

All I need is you
All I need is you

All I want is you
All I want is you
