

She Got It Outta Me

Mason Ramsey

Never really liked to be spending my time
With nobody else but me
Never wanted anyone touching my dial
Or taking up my backpack seat
But she walked in and I knew right then
Those days would be long-gone soon
I was used to thinking 'bout me and myself
Now I'm thinking 'bout someone new

And her lipstick
Makes me wanna kiss her lipstick
I tried but I couldn't resist it
Girl I didn't know what I was missing

Everybody's talking about falling in love
Lotta TV talking lotta Hollywood stuff
Had it all together, I was single and tough
Thought nobody could mess that up
But she got it outta me
No I didn't want to
Yeah she got it outta me
A little I love you, you

I was on a wide road a hundred miles long
But she paved over that so fast
I thought I wrote the Bible on pickup lines
Now I'm only picking up her tab
Now we're staring at the ceiling talking 'bout feelings
I never thought I'd be like this
I mean I never even met her uncle Bill from 'Bama
But now I'm buying him a Christmas gift

And I'm buying her lipstick
Makes me wanna kiss her lipstick
I tried but I couldn't resist it
Girl I didn't know what I was missing

Everybody's talking about falling in love
Lotta TV talking lotta Hollywood stuff
Had it all together, I was single and tough
Thought nobody could mess that up
But she got it outta me
No I didn't want to
Yeah she got it outta me
A little I love you, you

Never say never, never say won't
I said I'd never say it but what do you know?
Never say never, never say won't
I said I'd never say it but what do you know?

She got it outta me
No I didn't want to
Yeah she got it outta me
A little I love you, you

Everybody's talking about falling in love

Lotta TV talking lotta Hollywood stuff
Had it all together, I was single and tough
Thought nobody could mess that up
But she got it outta me
No I didn't want to
Yeah she got it outta me
A little I love you, you
You, you
