

## The Way I See It

Mason Ramsey

The way I see it  
Money ain't evil  
God ain't just in a box with the steeple  
Nothing wrong with sitting but I love country people  
Friday nights, I'd rather hear Hank than the Beatles

The way I see it  
You sow your wild oats  
Howl up at the moon  
Tell a few jokes  
Till you get lucky  
Find yourself a keeper  
Take her home to mama  
Put a ring on her finger

Don't get any better from where I'm sitting  
Sunset swinging with a front porch view  
Right about now, ain't a thing I'm missin'  
Six string in my hands right next to you  
If we're talking 'bout heaven, this night already been  
Baby, you and me forever, that's the way I see it  
You and me forever, that's the way I see it

The way I see it towns too crowded  
Truck ain't broken till I'm hundred-thousand  
Yee-haw her name and her mitten be shouted  
Down here every single person gets counted

Don't get any better from where I'm sitting  
Sunset swinging with a front porch view  
Right about now, ain't a thing I'm missin'  
Six string in my hands right next to you  
If we're talking 'bout heaven, this night already been  
Baby, you and me forever, that's the way I see it  
You and me forever, that's the way I see it

The way I see it it's a real good life  
Looking at you, looking through my eyes

Don't get any better from where I'm sitting  
Sunset swinging with a front porch view  
Right about now, ain't a thing I'm missin'  
Six string in my hands right next to you  
If we're talking 'bout heaven, this night already been  
Baby, you and me forever, that's the way I see it  
You and me forever, that's the way I see it
