

# Baptized In Decadence

Massacra

The meaning of words comes from within  
The gift of life is death in the end  
Infinite enemies and forgotten friends  
Experiences is wisdom

A law you cannot bend  
From up and above and down below  
Religion is money  
Just part of the show

Innocence at birth for all that it's worth  
Baptized in corruption  
On the road to humanity

Given to Adam this present from Eve  
Eternal damnation is the form of a seed

In order to lie you must believe  
To be like the others you have to deceive  
To steal from another is a brother in need  
To give all you've got, just to bleed

Written on paper  
Etched in stone, histories of life  
And futures unknown  
Time is your mother

Innocence at birth for all that it's worth  
Baptized in decadence  
For total self destruction
