

Eldritch Prophecy

Massacre

Beyond the ice and melting frost
Re-opened eyes of the equinox
Reforming visions in the prophet's dream
A new landscapes for all to see
Far beyond the eternal solstice
Upon a weird alien surface
Thru the passage of esoteric tome
Thy yuggoth migo home!

Behold the eldritch prophecy
The advent of monstrocities!

Thru the wormhole in an alien sky
Dreams escape the sleeping god's mind
A call is sent out across outer space
Thru the multi-dimensional gate
Received as visions in a human brain
Alhazred was driven insane
To scribe the dreaded necronomicon
The key to release horrors from beyond!

Behold the eldritch prophecy
The advent of monstrocities!

From the dawn of eternity
To the dusk of oblivion
The forsaken ones from beneath crawl
Told by the eldritch prophecy
In the end times...
The false ones - shall fall!
