

# Into the Far-Off Void

## Massacre

Tentacles breath the spial vortex  
Extending from out of the abyss  
Dead gods arise once more  
Out of the obscuring mist

Call forth the depraved malign  
Of the vile atrocious malign  
The sinister fiendish thrall  
Out of the nightmare monsters crawl

Open the necronomicon  
Recite the names aloud  
Summon the abominations  
Marking those avowed

Thru the astral gates  
Where cosmic horror spawned  
Out of the eternal darkness  
- farther from beyond! -  
Cast into oblivion  
Sycophants now destroyed  
Exiled elsewhere gone  
- into the far off void! -

Chaos masters re-emerge  
Azothoth's brood awakens  
Terrors from out of space and time  
To bring forth annihilation!

Call forth the depraved malign  
Of the vile atrocious malign  
The sinister fiendish thrall  
Out of the nightmare monsters crawl

Thru the astral gates  
Where cosmic horror spawned  
Out of the eternal darkness  
- farther from beyond! -  
Cast into oblivion  
Sycophants now destroyed  
Exiled elsewhere gone  
- into the far off void! -
