

# All We Got

Massive Wagons

You get the skin from our bones  
You get the highs and the lows  
You get the big summer nights  
You get the dust from the road  
You get the names and the faces  
The warm embraces  
The toilet stops  
The service stations

The thoughts in my head  
My voice when I'm dead  
My anger and rage  
Despair and the dread  
You get all of our heart  
It'll tear us apart  
And you'll get it until we're shot

We give it all we got  
Yeah, we give it all we got  
Take it from me  
We give it all we got  
Brothers and sisters  
We give it all we got  
Yeah, we give it all we got  
Give it all we got  
We give it all we got

It's this honest tale  
Destined to fail  
Between blue skies and black  
Get your hands in the air  
If my mind went blank  
I'd give you my thanks  
But until then we'll take the lot

We give it all we got  
Yeah, we give it all we got  
Take it from me  
We give it all we got  
Brothers and sisters  
We give it all we got  
Yeah, we give it all we got  
Give it all we got  
We give it all we got

Take it from me  
We give it all we got  
The blood and the bones  
We give it all we got  
Yeah, we give it all we got  
We'll give it all that we got

We give it all we got  
Take it from me  
We give it all we got  
Brothers and sisters  
We give it all we got

The blood and the bones  
We give it all we got  
Yeah, we give it all we got

Take it from me  
We give it all we got  
Brothers and sisters  
We give it all we got  
Yeah, we give it all we got  
Give it all we got  
We give it all we got

Take it from me  
We give it all we got  
The blood and the bones  
We give it all we got  
Yeah, we give it all we got  
We'll give it all that we got
