

# Big Time

## Massive Wagons

Drive my Dad's car  
Working all hours  
Music can pay  
If you're willing to wait  
But if you want it right now  
I'm gonna let you down  
'Cause I've nothing to gain  
By pulling your chain

When business is slow  
It's foot to the floor  
If business is good  
No time for woulda shoulda could  
You wanna make some doh  
Waxing your flow  
Don't whine to me  
I'm still finding my feet

Then I see old faces  
And they say to me  
Man, long time no see  
Are you still around here

I thought you'd have hit the big time  
But I see you're still messin' around round round round  
I thought you'd have hit the big time by now

Keep on going  
It's all that I know  
I'm not goin' down  
With nothin' to show  
'Cause I'm like a bad smell  
You can probably tell  
I'll be here till I'm not  
Or until I'm forgot

Then I see old faces  
And they say to me  
Man, long time no see  
Are you still around here

I thought you'd have hit the big time  
But I see you're still messin' around round round round  
I thought you'd have hit the big time by now  
Has the boat sailed or the train derailed  
Has the trail gone cold or are you just too old old old old  
I thought you'd have hit the big time by now

The planes off the ground bud, we're making that sound  
Still working your day job, I'll see you around

I thought you'd have hit the big time  
But I see you're still messin' around round round round  
I thought you'd have hit the big time by now  
Has the boat sailed or the train derailed  
Has the trail gone cold or are you just too old old old old  
I thought you'd have hit the big time by now
