

Changes

Massive Wagons

We made a lot of noise over the years
Was anybody listening, it's still not clear
But it's a nice place being in your face
So thanks for sticking with us, thanks for still being here
Good memories are just life's little souvenirs

And then we look back
At the, at the last 10 years
And then we look back and back and back and back

We've swung a lot of punches hitting the air
We've made a lot of bad decisions
We've a lot to declare
It's good to know that you're good to go
We're burning through your brain like a radio wave

From a distance I see you and me
From a distance I see you and me makin'...
Changes, changes, changes, changes
Changes, changes, changes, changes

From a distance I see you and me makin'...
Changes, changes, changes, changes
