

Rabbit Hole

Massive Wagons

Please send help, I've been exposed
I've fallen down a rabbit hole
Need more sleep, need more rest
Pray for me but none the less
Anxiety just pumping blood
My heart, my brain thud-thud-thud-thud
Seeing things no one should see
The sickest in society

Pedophiles, job is fucked
Satanism, job is fucked
You all know the job is fucked
Kids will say, job is fucked
Human beings, job is fucked
Mel Gibson says the job is fucked
If he says it must be fucked
It's totally completely fucked

'Cause they are a part of
It's all a part of
So are you a part of
Significantly terrifying
Ignorantly justifying

Hide my face, it's not my fault
No rope enough to hang you all
I hate this feeling in my heart
My faith in you has come apart
The things you feel on you be cross
So I will drown out of the fall
I never see the sacrifice
Our children made for parasites

Seeing the future, job is fucked
Me and you, job is fucked
Peace on earth, job is fucked
Understanding, job is fucked
Lord almighty, got to fuck
Can he help us, can he fuck
Will he change, I don't know
Human beings fucking suck

'Cause they are a part of
It's all a part of
So are you a part of
Significantly terrifying
Ignorantly justifying

There was an almighty flash of light
And the human race turned into shite
The universe had dealt its blow
The fuckers on earth would turn to sand and it was no less than they deserve
d

'Cause they are a part of
It's all a part of
So are you a part of

Significantly terrifying
Ignorantly justifying
Blatantly reclassify
The actions of the idolised
Leaving what we cannot see
We'll take it for eternity
Pay the reaper on your way
And please enjoy your fucking stay

Human kindness, job is fucked
Trusting people, job is fucked
Stick together, job is fucked
Can you help me, can you fuck
Strength in numbers, out of luck
Pray to Jesus, dead as fuck
Final match is heavy struck
Auf Weidersehen, adios
This song fucking sucks
