

Tokyo

Massive Wagons

We ride the road long
We play the same songs
We're takin' it hard
In and out of the heat

Leave the light on
When I come home
We'll tear your heart out
Livin' your life street to street

Oh, when we're dead and done
The music plays always
For days and days
We've played all over this land
Woah, no

They won't play us on the radio
Woah, no, no, no, no
Don't know who I gotta sleep with
But they're fuckin' me, let's go

They won't put us on the road to Tokyo
Woah, no, no, no, no
But we love all of your faces
You're the fucking greatest

Red light's the brightest
In the dirty darkness
We hit the road but
It's your life up front if you please

If ya keep on comin'
We'll keep on workin'
We'll get together and
Make our way through the heat

Oh, when we're dead and done
The music plays always
For days and days
We've played all over this land
Woah, no

They won't play us on the radio
Woah, no, no, no, no
Don't know who I gotta sleep with
But they're fuckin' me, let's go

They won't put us on the road to Tokyo
Woah, no, no, no, no
But we love all of your faces
You're the fucking greatest

Oh, when we're dead and done
The music plays always
For days and days
We've played all over this land
Woah, no

They won't play us on the radio
Oh, no, no, no, no
Don't know who I gotta sleep with
But they're fuckin' me, let's go

They won't put us on the road to Tokyo
Woah, no, no, no, no
But we love all of your faces
You're the fucking greatest

No, they won't play us on the radio
Woah, no, no, no, no
Don't know who I gotta sleep with
But they're fuckin' me, let's go

They won't put us on the road to Tokyo
Woah, no, no, no, no
But we love all of your faces
You're the fucking greatest

Oh, no, no, no, no
And we love all of your faces
You're the fucking greatest

Oh, no, no, no, no
Don't know who I gotta sleep with
But they're fuckin' me
