

Hello everybody  
How you doing guys?  
Today I want to show you  
A very good mathematic trick  
Ok, you're gonna love this treat  
Because it's a great one  
And uh let's do it

Ya'll little rap cats ain't figured this  
The specimen, regiment is rigorous  
The hate so exponential, my potential  
Means there's only couple bars for a nigga dis  
Is it geometry or trigonometry?  
Try counterpull the currency that I'mma see  
And where I'mma be is on top  
Like a numerator, fast, it's the cash accumulator  
Try to follow after this is like Calculus  
It's hard to calculate, what you about to miss  
I'm like a fully grown tree when I bare fruit  
I'm feeding ya'll from the branch to the square root  
Yeah and I don't give a damn if you flip a Pi  
The meaning still the same but I'm a different guy  
Don't need no body double, this is real stunting  
It's simple mathematics, Good Will Hunting  
I turn a negative into a positive  
This is what I got to give and how I opt to live  
My philosophies, you can try every angle  
But can't hang though, isosceles  
Hypotheses, the education that I share so cold  
Man watch how I drop degrees  
I will convert ya'll, like Celsius to Fahrenheit  
When I grab the mic, watch me work ya'll  
I'm up next like that bullet you find in the chamber  
Subtract them and find me, yes I'm the remainder  
Dominant, in my path is prominent danger  
KIC Beats the producer and I'm the arranger  
Filthy Rich on the boards like a power forward  
And EMC be the crew that I'm a tour with  
From '88 to infinity, my energy  
Made the crowd move like Synity  
Yeah another 500 decimal joint  
Every line I be making my decimal point  
I'm used to the doubts and the skepticism  
But won't budge an inch, I'm the metric system  
Listen, listen don't make the wrong decision  
Cause we will not work it out man, long division  
Another song vision, another product of hard work  
Against all odds, this is God's work

I hope you guys enjoyed this trick  
Its a really cool one isn't it?  
And yah, have fun with it  
I'm going to show you many more cool tricks  
Coming soon and  
Times up, thanks very much  
I will see you next time
