

Money Problems

Masta Ace

One's for your troubles, two's for your problems
If we get some money then maybe we could solve em
But it's hard to catch it, especially if you chase it
Y'all motherfuckers so basic

They said I need a big bag, bigger than I ever seen
And I need Corinthian, suede or some leather mien
And I need some ornaments, real nice accoutrements
Never did I have it but guess I'll get used to it
Then I'll get a bad bitch, I could build a future with
And I'll need a big .45, I could shoot you with
Just in case they try to come for mine
Cause they always try to undermine, all calves underline
Man it would be fun to find, the right course
Where I don't feel lost or feel forced to be on the ground
What if I don't wanna shine, cause of all these problems on the mind
A fool once told me with a straight face money solves everything
Said I'ma need it if I wanna buy a wedding ring
To get married to the game
Said everybody's doing it so I should do the same

Money, money, cash, money, money
For the bills, for the B-I-double-L bills
For the B-I-double-L bills

One's for your troubles and two's for your problems
If we get some money then maybe we could solve em
But it's hard to catch it, especially if you chase it
Y'all motherfuckers so basic

And God we trust, that's my motto
I could buy you everything that you want except for tomorrow
More of me make girls fall in love and prostitutes swallow
But the lack of me takes families apart from drugs to bottles
Watching what I did to a generation of women
Who pretend to love a man that she hates just to make a living
I seen you give away my relatives in exchange for nails and clothes
The reason your pops in jail and broke
He chased me, I'm the reason you feel replaced
So you project all that hurt, I'm the cure for you feeling safe
You watched your mama struggle without me and deal with pain
Just to spend me on things you don't need, still won't save
Damn, I guess nobody will ever appreciate how to wait to perfect me
I only thrive when you save and invest me
Learn me while you young and you won't stress older
Maybe I'll be appreciated more by my next owner
Damn

Cash, money, money, for the bills
For the B-l-double-L bills
For the B-l-double-L bills

One's for your troubles and two's for your problems
If we get some money then maybe we can solve em
But it's hard to catch it, especially if you chase it
Y'all motherfuckers so basic
