Outside In

Masta Ace

Oh, oh, no, oh
Oh, oh, no, oh
Stressed too much
Yeah

You don't wanna mess your clothes up
Baby, why the show-off
Let's live
Let's live
Let's live
Baby, why the hold up
We can get it shown up
Let's live
Let's live
Let's live

Cause we've been inside
We've been inside
We've been inside
We've been inside

Still remember when I first saw you outside
Tried, but I couldn't ignore you outside
Act like you had nothin' for me outside
I was tryin' to make a love story outside
I was just tryin' to get your number outside
Posted up next to that Hummer outside
Prayed for the day you was comin' outside
When it's see-through, sundressed summer outside
Walk and we talk, holdin' hands outside
Layin' on the beach, gettin' tans outside
Take you on a date, spin bands outside
Finally, we get to make plans outside

We've been inside
We've been inside
We've been inside
We've been inside

When we first met, had butterflies inside
Figured out next, this brother's wise inside
Indirect, always looked me in my eyes inside
Till I got to see that you were no disguise inside
Sent my address in a text with surprise inside
Nightcap said I'd die for the vibes inside
Miss pickin' outfits cause our lives inside
Subscribe to Netflix to survive inside
Remember jet trips and the view inside?
Playin' plenty to see, but left room inside
Never ran out of the things we could do inside
But it's music here and your table for two's inside

We've been inside
We've been inside
We've been inside
We've been inside

You don't wanna mess your clothes up
Baby, why the show-off
Let's live
Let's live
Let's live
Baby, why the hold up
We can get it shown up
Let's live
Let's live
Let's live

Cause we've been inside
We've been inside
We've been inside (Tryna come out now, tryna come out now)
We've been inside
We've been inside

You don't wanna mess your clothes up
Baby, why the show-off
Let's live
Let's live
Baby, why the hold up
We can get it shown up
Let's live
Let's live

Cause we've been inside
