Yo, the High Chief Jamel Irief takes the stage
When I speak the hell I speak, lift the gauge
White chalk rappers
Slight talk, knife hawk, fight that rapper
Ruck the master, call me the fifth dan
Pop shit and chop bricks quick with his swift hand
Can't enter the venue, the f*ck is your wristband?
Whole shit is stinkin' and sinkin' in quicksand
My worst verse better than the best
My best verse better than the rest
The rest of the rest need to rest
I suggest you all fall back 'for I mess up your chest
P!, I am the best
Brook Brothers in the casket, I'm fresh to death
I go knock on ya door like Jehovah Witness
Witness the gun spun son I'm wicked, uh
Gift of Gab, my gab is gifted
I say the right words, you be stabbed and lifted
All white knife, the Mercedes is black, kid
Gun popped, you get shot through babyback ribs

We keep it hip hop, socialize
Clean out your ears, open up your focal
Point me to the MC
Thinking he can pull his microphone out against me
Get your hands up, keep rising 'cause I can't stop, it ain't no top
See the flow is non-GMO, an orchard of witty unpredictable
Wise words growing organically
I spit cases of water refined, alkaline lines
Combined by design of rhyme, it's now food for
Multiples publishing and royalties is loyalty
And pays systematic on time

One time for your motherf*cking mind
See the 22 points on my Universal Flag, designed
Combined with the relevance of intelligent, it's tolerant
