Ball wit da real, hang wit da Gs Started from Richmond, California to New Orleans Game won't change, these niggas can't fade me Mama still pray for baby Ghetto got me sick, dope fiends and crack heads Niggas on da front porch wit tech nines and lemon heads And all I want be is a soldier

Cause I'm tired of runnin' from da rollas

Jumped in da rap game and now dey can't hold us

Ghetto millionaires and still blowin' doja
Keep my composure when times hectic
Now I own a house in California, Orlando, and Texas
And still run wit the thug niggas
And made tapes for bitches and drug dealas
And push 600 wit a bulletproof
The ghetto Bill Gates
The only president wit a gold tooth

Uh, n-neva let your guards down
Always play defense neva offense
Cause suckas a try to make your kindness for weakness
And damn sho try to shake your hand up unda falsified pretenses
Sequence this
Paint a portrait of these next events
See if you can predict what I was about to say
Within the next couple of sentences
Technically impossible
To hard to call
See right when he thought I was gone throw a slider
I threw him a knuckle ball
Back against the wall, knockin' niggas out (knockin' niggas out)
Hemmed up in da corner nigga that's what I'm about

Feel my pain, sometimes I feel trapped
Nigga tired of hangin' in the ghetto takin' food stamps
Cause this street life got me crazy
But I hustle cause I gotta feed a baby
And only God can take me
And ain't no nigga in this hood gone play me
So when I ball I'm a ball til I fizall
And when I'm gone put my name on the wizall

[Chorus]
