

Lonely Road

Master P

Sometimes I feel alone out here on this road
Then I remember... where I've been
But when it gets cold out there it won't be long
I keep it pushing
And never look back again
I'd do everything monumental

Even in bad times, we never gave up
When we was out numbered, ain't none of it change us
In the struggle we got strong, you real and you last long
What they say was impossible I had to prove them haters wrong
I never looked back, kept my eyes on my opponent
I gave it my all then I did what I wanted
Ball, work, it pays off
Even when faced off
I ball and the enemies see life is to play ball
I'm tyin up my shoes and I got ready for war
I came from nothing to something, they couldn't take me apart
They say whatever don't kill you make you stronger and that's a fact
And through the pain real champs never look back

You get one shot to make it
It's right there for the taking
All real life, no faking
And never look back

Sometimes I feel alone out here on this road
Then I remember... where I've been
But when it gets cold out there it won't be long
I keep it pushing
And never look back again
I'd do everything monumental

It's a lonely road to success, especially when they hate you
Ain't nobody make you so never let em break you
It's no limit to my dreams and all the hard work I put in
And losing ain't a option to all the struggling that I've been in
I strived when I couldn't strive
Kept running when I got tired
These scars and these wounds didn't made me quit, it made me realize
It's one thing that I want
And one thing I can get
If I keep going I'm gon make it
Ain't no option in me quitting
'Cus winners never quit
Quitters never win
If I fall I get back up and do it all again
Use my gift and my talent, I gotta keep going
If you believe and you dream
Big it's nothing when you want it

You get one side to make it
It's right there for the taking
All real life, no faking
And never look back

Sometimes I feel alone out here on this road

Then I remember... where I've been
But when it gets cold out there it won't be long
I keep it pushing
And never look back again
I'd do everything monumental
