Master P

You may be young, but you're ready
CP3, that project love (project love)
Body to body (ready to love)
That's that hood love (that's that hood love)
See, you're not a little girl
You're a whole lot (let's do this, let's do this)
There's no limit for effort
Black and mild, you a G and shit, digga me
What's up, love? (What's up, love?)

I gave you the keys and we ridin'
I'm talkin' bodies and bodies
Caught a body last night
I mean my body, your body
I mean you want it, I got it
We go shoppin', just buy it
I got a hundred grams of cops comin'
You runnin', just hide it
I said, "I love you," we made it
Tell you, "Kiss me," and maybe
We did it in the office last night
Girl, you went crazy
We on the desk and the table
I'm on your neck and your navel
The TV is your body
I'm unpluggin' the cable

Tell me if you like it when they grab you by your waist (by your waist)
When you're ill, let me take you to my place (to my place)
Light a couple candles while we sippin' on some roses (roses)
Talkin' touchin', gettin' closer, now we causin' (causin')
My body, I love your body (your body)
Your body, I love my body (my body)
My body (my body)
Your body (I love my body)
My body, I love your
