

Winners Never Quit

Master P

Still can't believe that they slept on us
Come from no scones and became millionaires with no donors
Told grandma keep praying I'ma make it
Put opportunity in front of me and I'ma take it
I'm the new Rich Paul from the streets to the corporations
Don't hate the player, hate the game, this is motivation
Top ten greatest hustler of all time
But they won't admit it 'til you retire like A.I.
And like a Russell, I done sold tape
I done went from the projects to million dollar real estate
Homie tell me now that ain't gold
I went from rock bottom on the bus to fancy cars
They said you know better then you do better
Like D1 said man we stronger together
And we put the whole city on the map
Ghetto millionaires and we came from the trap

Winners never quit, winners never quit
We started with nothing and now we rich
Winners never quit, winners never quit
We put in the work and now we rich
Winners never quit, winners never quit
We started with nothing and now we rich
Winners never quit, winners never quit
We put in the work and now we rich

You either give up or quit or go inside
I live for the moment, you see the pain in my eyes
And I'm a beast 'til the end of it
And I was born for the big stage, that's why they scared of it
And papa ain't raised no sucker
Even then hard to hold your head little brother
And life's a marathon, it ain't no race
The same stars in the sky, same stars in my Wraith
A lot of wahoo battles on the front line
But real ones come through in the crunch time
And I done went swimming with the sharks
So give me the ball at 25, I hit the 3 in the dark
Switch, and it's for anybody with a big dream
Gotta keep going even when they don't believe
Top your tennis shoes then max out
'Cause real champions never back out

Winners never quit, winners never quit
We started with nothing and now we rich
Winners never quit, winners never quit
We put in the work and now we rich
Winners never quit, winners never quit
We started with nothing and now we rich
Winners never quit, winners never quit
We put in the work and now we rich
