

## Stand Up And Be Counted

Master

When life just gets in your way and panic is on the rise  
The stress can often be blamed on other people's advice  
Deep down inside your soul a search is needed within  
Your mind is under control expressing your move on a whim

Stand up and be counted let's all move in stride  
Never in doubt with the will to survive  
Stand up and be counted let's all move in stride  
Never be a failure it's a word to the wise

Well what do you think about that motherfucker  
Keep your thoughts to yourself

Deceptions endangers our trust, reflection is really a must  
A copacetic endeavor can really help us discuss  
Deep down inside your soul a search is needed within  
Your mind is under control expressing your move on a whim

Stand up and be counted let's all move in stride  
Never in doubt with the will to survive  
Stand up and be counted let's all move in stride  
Never be a failure it's a word to the wise

Why so angry about the injustice  
A need for connection is really above this  
Vengeance and deceit will not improve  
So many a friendship will just conclude

Stand up and be counted let's all move in stride  
Stand up and be counted we all have the wills so survive
