

Pump it up

Masterboy

Bass kick

Hey Mr. DJ
Pump it up

Pump it up, let's pump it up
I like it
Pump it up, let's pump it up
I like it

We're back, staking our claim
You know the deal, see if you can hang
The capital A to B on a mission
And then be going for my first sensation
Out of the control is the way to go so
Take a listen while we flow
With a groove that's going to make you get up
Go Masterboy, now give it up

Pump it up, let's pump it up
I like it
Pump it up, let's pump it up
I like it
Pump it up, let's pump it up
I like it
Pump it up, let's pump it up
I like it

Move your body side to side
Left to right more like that all night
Shake it up and down all around
Like this, you can't miss
Feel you can hang with the best
Forget about the rest
You're number one, not second best
Bust a move or two in your roots
See what the next man is going to do
Jammin' on the dance floor, you get attention
Especially a girl, he didn't mention
Some people can't hang, they get fed up
Come on Masterboy, now pump it up

Pump it up, let's pump it up
I like it
Pump it up, let's pump it up
I like it
Pump it up, let's pump it up
I like it
Pump it up, let's pump it up

I like it

Pump it up, let's pump it up

I like it

Pump it up, let's pump it up

I like it

Pump it up, let's pump it up

I like it

Pump it up, let's pump it up
