

# The Black One

Masterplan

Hey can you feel my winter  
I have frozen out the pain  
She gave me her heaven  
The she sent me to the deepest hell  
My demons are calling  
I feel them crying like the howling wind  
She took my heart like an eagle  
And flew me up into the highest sky  
I say that woman is evil  
Love was flying on the wings of a lie  
She made me the black one  
The darkness behind the sun  
My rainbow has gone  
I am walking in the darkest cold land  
Saving strenght to open doors  
From ashes to fire  
I have to rise from my inner war  
Stole my heart like a eagle  
Love was carried on the wings of a lie  
that woman was evil  
Flew me up into the highest sky  
And dropped me down  
It made me black one  
The eclipse of the sun  
Waiting for the light to come  
Hey... they call me the black one  
The darkness blocking out the sun  
My rainbow had gone  
Oh... you can call me the black one  
The darkness behing the sun  
My rainbow has gone  
Yeah... look out for the black one  
The eclipse of the sun  
Yeah... I am the black one black one  
The darkness has come
