

Lover's Sky

Masters of Reality

I am the ghost that flows
Down highway 62
I make the shallows crawl
I lift you when you fall

Eli eli
How lost am i?
In your lover's sky

We're all alone in time
Someone has cut the line
And if we fade away
We were never meant to stay

Eli eli
How lost am i?
In your lover's sky
In your lover's sky

Walk the night by you lover's side
In your lover's sky
In your lover's sky
In your lover's sky
