

The Desert Song

Masters of Reality

ome with me baby
Drive through the open night
Where sun's burning baby
Dreams shatter like morning light
It's alright

Hide with me baby
Find a place where angels play
Like wild flowers honey
Hidin' underneath the desert ways
It's alright

Come with me baby
Drive through the open night
Where sun's burning baby
Dreams shatter like morning light
It's alright

It's alright
