

# Dandelion

Mat Kearney

Like a windin' road  
In new open space  
I kinda never know  
Which turn you'll take

Don't wanna hold you back  
And that'll never change  
Tell me who am I to stand in your way

You're my dandelion  
Born to fly over horizons  
Carry me away in the summer wind  
Ain't nobody ever gonna fence you in  
Wild love grows without even trying  
My dandelion

You've always been the one  
That'd I'd been wishing on  
I wouldn't wanna tame the wild ways  
When you run

No, I won't hold you back  
And that'll never change  
I'll be here following you floating away

You're my dandelion  
Born to fly over horizons  
Carry me away in the summer wind  
Ain't nobody ever gonna fence you in  
Wild love grows without even trying  
My dandelion

You're my dandelion  
Born to fly over horizons  
Ain't nobody ever gonna fence you in  
Wild love grows without even trying  
My dandelion
