

Old Flame

Mat Kearney

Sparks were flying right there
In the middle of the night babe
Took the fire from your car
Ended up in your apartment

Lately it's feeling like we're burning low
I say we light it up and let it go

Just for the night
Turn out the lights
Check out of life for just one day
You pour the wine
I'll take my time
You know I'll find the right moves to make

Turning over covers
Trying to discover
All the love we've made
Empty out the bottle
Save it for tomorrow
Only we can change

Baby hey ey ey
What do you say ey eh eh?
How 'bout wasting one more day
On that old flame

When I look you strike like a matchbook
Feels like lightning babe
Reminds me of wine only nights
On a landmark birthday

Your skin on mine
Outside it's 10 below
I said we light it up and feel the afterglow

Just for the night
Turn out the lights
Check out of life for just one day
You pour the wine
I'll take my time
You know I'll find the right moves to make

Turning over covers
Trying to discover
All the love we've made
Empty out the bottle
Save it for tomorrow
Only we can change

Baby hey ey ey
What do you say eh eh?
How 'bout wasting one more day
On that old flame

Wasting wasting
Wasting wasting

Wasting waste
How 'bout wasting one more day on that old flame
Yeah

Just for the night
We'll turn out the lights
Check out of life for just one day
You pour the wine
I'll take my time
You know I'll find the right moves to make

Turning over covers
Trying to discover
All the love we've made
Empty out the bottle
Save it for tomorrow
Only we can change

Baby hey ey ey
What do you say ey eh eh?
How 'bout wasting one more day
On that old flame

Ey eh
Wasting wasting
Wasting wasting
Wasting waste
How 'bout wasting one more day on that old flame
