

Introducing...

Mat Kerekes

Onward to the best part
Never let a thing go
Come get what you're here for
Come get what you're here for

Always got your guard up
You know what you're in for
Beat it out and move on
Beat it out and move on

You're here to entertain
You're nothing more than that

When the curtain falls hard
You're looking like you've seen a ghost
Maybe it's just a mirror
Maybe it's just a mirror

Heaven is a black hole
Come get what you're here for
Even if it's a bad look
Even if it's a bad look

You're here to entertain
You're nothing more than that
Beat it out and move on
Beat it out and move on
You're here to entertain
You're nothing more than that
You're nothing more than that

Hit me with your best shot
Better see that it works
Come get what you're here for
Come get what you're here for
