

# Parade

Matchbox Twenty

When the slow parade went past  
When it felt so good you knew it couldn't last  
And all too soon the end was gonna come without a warning  
And you'd have to just go home

And the way it all went by  
When somebody said "come on its getting late"  
And you thought the world might end if you just looked the other way  
And now you wish that you had stayed

And there's so much more that you could see if you just stick around  
And all the street light secrets whispering for you to come back out

Oh no  
There's so much more that you need to work out  
Oh no  
You don't want that parade to leave you now

And the days are all the same  
And the town so big and no one knows your name  
And the people fade away  
And all stars are just a flicker  
And you're left there all alone

When there's so much more that you could see if you'd just stick around  
And all the street light secrets whispering for you to come back out

Oh no  
There's so much more that you need to work out  
Oh no  
You don't want that parade to leave you now

When the music's over  
But the song stays in your head

Oh no  
There's so much more that you need to work out  
Oh no  
You don't want that parade to leave you now

Yeah  
There's so much more that you need to work out  
Yeah

You don't want that parade to leave you now
